

Zodiac Smart Locking System For Parcel Lockers

Parcel delivery made easy

Zodiac ensures smooth deliveries without the need for anyone to be kept waiting.

With the rise of e-commerce, parcel lockers bring a new and valuable benefit to building users. They're particularly useful in lobbies or the reception areas of apartments, offices, health clubs or college and university campuses.

Zodiac is a **complete smart locking system** including touchscreen controller, high-quality door latches and fast, intuitive software; **designed for best-in-class performance** and ready to be fitted to your parcel lockers.

Uniquely intuitive to use, Zodiac software features a **premium, modern interface** that makes delivery incredibly simple. It's courier independent and packages can be **safely** and **securely** deposited in seconds – simply by selecting the recipient's name on the touchscreen.

How it works

Zodiac makes parcel delivery and collection seamless and effortless.

Completely **independent**, Zodiac can accept deliveries from any delivery service, or even colleagues, friends and family. What's more, once a delivery has been made, the software instantly sends out a **notification** message to the recipient. The system can receive parcels for return and also be used as an on-site package handover hub.

The whole system is **completely self-service** with no day-to-day management of the lockers required. Web connectivity enables managers to **dynamically control** large parcel locker networks from one single location – so adding new users, opening lockers and checking status can all be done remotely.

✓ GOOD TO KNOW

- 1 Zodiac is a **complete** system of intuitive software and high-quality hardware
- 2 Zodiac can run **standalone** which is ideal for basic installations
- 3 Zodiac Connected adds **advanced** online management features

Why it's so smart

Just some of the reasons why Zodiac could be the right solution for your parcel lockers.

Premium Design

Create great impressions with excellent usability, custom touchscreen branding and no visible locking hardware.

- ✓ **Improved experience:** Exceed expectations at crucial building 'touchpoints'
- ✓ **Build engagement:** Use the touchscreen to share information or advertising – for example, notices for café promotions

Independent

Accept parcels from any delivery service, or even friends, family and colleagues.

- ✓ **Improved experience:** No need to worry about couriers when ordering
- ✓ **Added value:** Drop-offs between users add another dimension to your lockers

Easy Management

Whether on-screen or online, Zodiac admin tools make setup and management straightforward.

- ✓ **Save time:** Building managers already have enough on their plate
- ✓ **Fine control:** Get more out of Zodiac with advanced admin options

Quality Hardware

Just because it's hidden doesn't stop us paying attention to every detail.

- ✓ **Peace of mind:** Zodiac hardware is built for reliability and tested relentlessly
- ✓ **Emergency access:** Door latches include key and cable override options
- ✓ **Ready for the future:** Zodiac grows with you; easily add more modules at any point

Change how it works

Adapt the functionality of the Zodiac Smart Locking System with a range of optional features.

IP-rated Hardware For Outdoor Installations

We can switch out the electronic latches and touchscreen for water-resistant versions.

Connected Software

Zodiac Connected adds online management features for remotely adding new users, opening doors and checking system status.

Customisable Touchscreen Branding

Use the Connected portal to load custom colours and logos for your business, and share messages and content to the touchscreen.

RFID Readers

To give users instant access, Zodiac can be fitted with RFID readers compatible with most access control cards.

We're here and ready to help

Our electronic locks are made in the UK and supported by our expert team in Europe and America, and through our partners worldwide.
