

EURO-LOCKS
LOCKING SYSTEMS FOR INDUSTRY

MEDICAL FURNITURE LOCKING SYSTEMS: LOCKING SOLUTIONS FOR THE MEDICAL AND HEALTHCARE INDUSTRY

From digital locks to mechanical locks, we can keep it safe! Euro-Locks have an extensive, well established range of locking solutions to suit every requirement.

Our locking systems ensure that medicines, personal belongings, patient notes and confidential papers are stored safely and only accessible to staff with the right keys.

All of our locks can be supplied 'to differ', allowing each ward or department to have its own key and a key stored securely at the pharmacy for example. This means trolleys can be securely moved between wards or consultation and treatment rooms, or items retrieved securely from cabinets, with no unauthorised access.

As a specialist manufacturer of locking systems, Euro-Locks supply a wide variety of locks and locking solutions for healthcare and medical applications. Our locks can be found on medical furniture in health centres, hospitals, nursing homes, vets and other healthcare buildings.

- Hospital beside lockers and cabinets for secure storage of patient's medication and personal belongings on the ward
- Drug and medicine trolleys to provide secure delivery and distribution of drugs and medicines from pharmacy to ward
- Drug and medicine cabinets and cupboards for secure, bulk storage of medicines and drugs
- Medical records cabinets and trolleys for the secure storage, distribution and accessibility of patient notes and confidential papers
- Personal storage cupboards and lockers for storing and securing personal belongings and possessions for staff and visitors

Advantages

- A varied range of digital and mechanical locking systems
- We can supply standard or bespoke products in high or low volumes
- We work closely with our customers to design bespoke locking solutions specific to their exact requirements
- We manufacture over 70 million locking systems annually from our UK and European factories
- We have made locks since 1889 and are a fifth generation family owned business

From the simplest mechanical lock through to electronically controlled systems, we have a solution to suit all needs. If you need advice or a bespoke solution please contact our team who will be happy to help you.
